

GARDEN TRUCK FROM THE SOUTH.

Two Trains Daily Carry Immense Quantities from North Carolina Alone.

Washington Post.

In the busy season the railroad runs two trains daily, each train carrying 3,000 to 4,000 boxes and barrels, while the steamers take from 10,000 to 12,000 of them a week. The farms about New Bern and Elizabeth City produce large quantities of potatoes, two crops being grown annually. According to a recent statement made to the writer, the truck shipped from New Bern last year amounted to seventy train loads, or about 240,000 boxes and barrels, and 150,000 packages by steamer. The value of this truck is estimated to have been about \$1,000,000.

From Wilmington to Goldsboro, along the Wilmington and Weldon Railroad, almost every station is a shipping point for strawberries and truck. The most attention is paid to strawberries, and many of the growers have been very successful.

At Mount Olive one truck farmer, who has about seventy acres in cultivation, thirty-three being in strawberries, told me that two years ago his berry crop brought \$16,000. He figured that his net profits were not less than one half of that, or \$8,000. The shipments have begun about the 20th of April, and last about a month. The berries are sent to New York at a cost of 5 cents per quart.

The truck from North Carolina is followed into market by that from Norfolk, Va. This is the entire center of the greatest trucking area in the South. The location of Norfolk, with quick railroad and water transportation, gives it many advantages. The trucking country is almost surrounded by salt water, and is cut in by numerous sounds and channels from the ocean, from Chesapeake Bay, from Hampton Roads, and from the Elizabeth and James rivers. Besides, the warm waters of the Gulf stream make the season earlier than at inland farms in the same latitude, and admit of the growing of a greater variety of vegetables than can be safely attempted elsewhere.

The Grandest Fact of Nature, Look at Her. Charlotte Observer.

A man by the name of Bouicault, a white back remarked: "I wish Adam had died with all his ribs in his body." That man was a fool. This world would have been a wilderness of woe, sure enough, if Eve had not sprung from Adam's spare rib. The grandest fact of nature is woman. It man had not kept woman in the background for so many ages the world might be in sight of, if not in full blaze of the millennium by now. This by way of introducing a reference to the exceedingly interesting and important address of Hon. Charles W. Dabney at the commencement of the State Normal and Industrial School at Greensboro, said he, from quoting an authority: "In point of both origin and importance in the history and economy of organic life, the female sex is primary and as life is the highest part of nature and human life the highest type of life, it follows that the grandest fact of nature is woman." It has been figured out, we learn, by careful research and study, that man is the variable element in creation while woman is the steady one. Heredity is distinctively the attribute of the female; variation is the characteristic of the male. Hence the importance of educating woman, since she is the preserver and improver of the race.

Dr. Dabney, however, does not say much for man, poor fellow. Weak, frail, uncertain, vacillating, wobbling man! The unknown quantity in the algebra of human life! "Unstable as water." Reuben-like, he is generally out of plumb, and rarely ever in the middle of the road! But no matter. Adam is overbalancingly above a rib, that heaven! There are women in the world! There are more than ever in schools and colleges, too. Thousands and thousands of sweet girl graduates are this very minute reading their essays on the thorns thrown in with the roses of life. They are the roses and we are the thorns. Ah, the glory of the roses and the pity of the thorns. Here's to the women, God bless them! Good angels of human kind!

A Disgusted Northerner Fayetteville Observer.

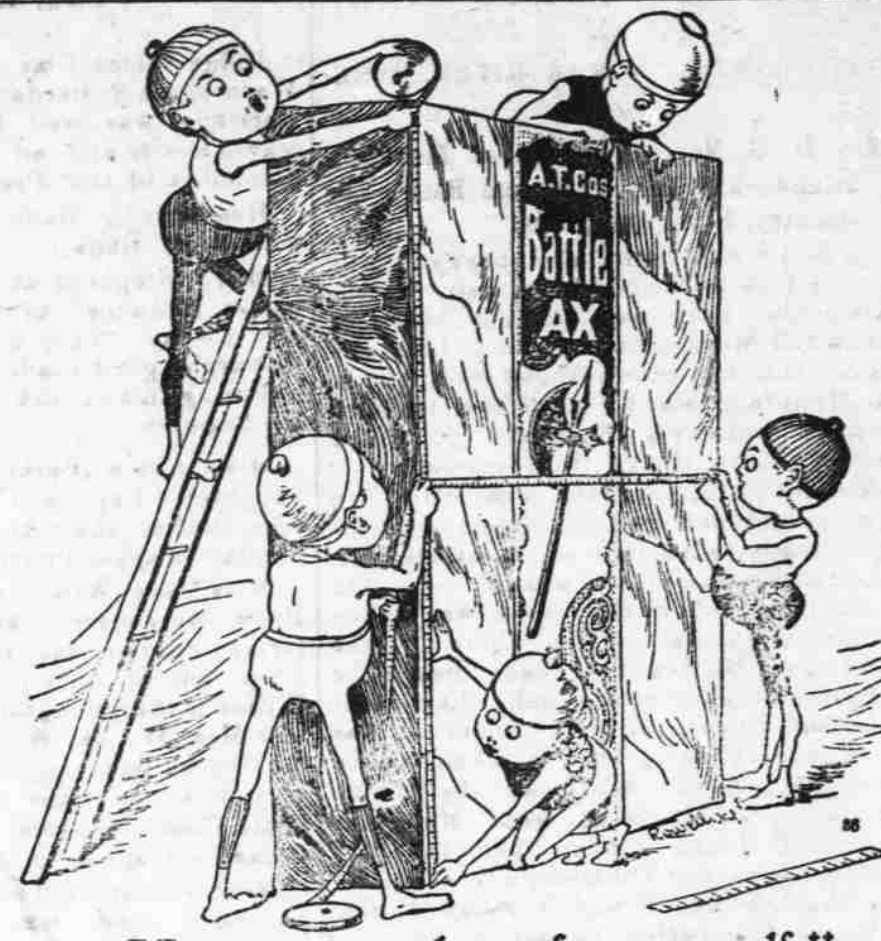

A northern man a republican, a Mr. Baker of Fall River Mass, arrived in the city last night with his eyes opened. Mr. Baker was sitting in front of the La Fayette Hotel listening to a number of gentlemen discussing politics. He suddenly arose from his seat and said "Gentlemen, you are all strangers to me, but if you will allow it, I want to unburden my mind of a humble thought, the hot bed of abolition, and have been taught to believe my life that the republicans and negroes were badly treated by the democrats of the South; in fact that they were still little better than slaves. Last Friday I stopped in a Southern city, the city of Raleigh, for the first time in my life. I heard that there was a republican State convention in session and I went charged with sympathy for the oppressed republicans, I stood and gazed at that horrid, seething, cursing mob and but a few moments were sufficient to convince me that if this was republicanism in the south, then God deliver her from it. Boys, I am a Southern democrat in heart and in spirit if not by residence."

Strawberries. There has been in the neighborhood of 12,000 crates of berries shipped from this place this season. At a net average of \$3 per crate, we have \$36,000. There are 32 quarts to the crate, and pickers get one and half cents per quart. This would realize \$6,760 to the laboring class hereabouts.

The Latest Charade.

My first if he would fail succeed, Must give and keep my whole, My second's remedies have saved The life of many a soul; My third is what my whole will be, 'Tis ages o'er us roll; My fourth my first want need to fill If you will take my whole.

The answer is one of the best remedies for female troubles ever known. For periodic pains, excessive flowing, profluous bearing down, inflammation, nervous headaches and all diseases resulting from "female weakness." There is nothing so good as Dr. Pierce's Favorite Prescription. The only remedy so certain in results that it gives satisfaction to all who try it.

NOT A SICK DAY For Over Thirty Years!
RESULT OF USING
AYER'S PILLS

"Ayer's Cathartic Pills for over thirty years have kept me in good health, never having had a sick day in all that time. Before I was twenty I suffered almost continually as a result of constipation—from dyspepsia, headaches, neuralgia, or boils and other eruptive diseases. When I became convinced

that nine-tenths of my troubles were caused by constipation, I began the use of Ayer's Pills, with the most satisfactory results, never having a single attack that did not readily yield to this remedy. My wife, who had been an invalid for years, also began to use Ayer's Pills, and her health was quickly restored. With my children I had noticed that nearly all their ailments were preceded by constipation, and I soon had the pleasure of knowing that with children as with parents, Ayer's Pills, if taken in season, avert all danger of sickness."—H. WETSTEIN, Byron, Ill.
